With this issue this paper returns to its former name of CORVALLIS GAZETTE and becomes a semi-weekly. The reason for the first change is that the name Union-Gazette has been cumbersome and unsatisfactory and has led to much confusion as to the place of its publication. The second change is a natural evolution in the march of progress, and comes of a desire on our part to give our readers the very best service possible, consistent with the income of our business. Our weekly addition will appear Friday mornings as heretofore while the semi-weekly will be published Tuesday mornings.

THE TRUTH OF THE MATTER.

The political campaign beginning promises much embellishment with the usual misrepresentations and defamations of character of republican candidates. Who may be assailed next no one knows, but Congressman Tongue has already been given the first installment. At the session of the legislature when the late Senator Dolph was defeated for re-election Mr. Tongue's name and that of Charles Fulton and others were discussed by the legislators with considerable following as prospective candidates to succeed Mr. Dolph. After Mr. Dolph received the caucus nomination Mr. Tongue and Mr. Fulton went home, leaving the field undisturbed, so far as they were concerned, in favor of Mr. Dolph. The advocates of free coinage of silver at the ratio of 16 to 1 remained, and with other silver adherents in their respective localities, opposed Mr. Dolph's re-election because he was in favor of the gold standard. Mr. Tongue also entered the Albany republican convention in opposition to Mr. Herman and others for the nomination for congress and while Mr. Herman was deservedly popular among the people, yet it was the final decision of that convention for Mr. Tongue to be candidate and not Mr. Herman. It is conceded as one of the fundamental principles of a republican form of government that every qualified elector has the right to enter his convention or the legislature of his state to compete for his election or nomination for office, and yet for these acts incident to American citizenship Mr. Tongue is characterized by his demagogic opponents as having plotted, conspired and been guilty of these "cowardly acts."

What cowardly act? For pursuing his privileges as a citizen of the United States. Again the records of congress show that Mr. Tongue at all times and at every opportunity appeared before the proper committee, the engineers, the secretary of war and on the floor of the house advocating, pleading for and urging that the contract be let for continuing the improvement of Yaquina bay; but the continued influence of all of the transportation lines in the great Northwest which did not want Yaquina bay opened for any cause, were in combined opposition to Mr. Tongue's manly and persistent efforts, and such powerful opposition for the time being succeeded, and yet the same political opponents characterize Mr. Tongue as sitting in congress as a "hypnotized dum-

my," "a political mountebank" and various other linguistic specimens, which, to say the least, are not elegant or approved by the reading public. In short, the kind of "stuff" related is given to the public to obscure the real cause why the demagogues oppose Mr. Tongue's re-election. The real cause of their opposition is that Mr. Tongue during his whole life has been an uncompromising republican, never faltering in any effort on his part to oppose the tendencies and pretensions of the demagogic effort. Mr. Tongue has always been in favor of the established money standard of the United States, and opposed to the free coinage of silver at the ratio of 16 to 1. Mr. Tongue has never indicated to the opposing parties that he would relent in any respect in favor of any of their unrepentant schemes. When Mr. Tongue is approached he is outspoken and frank "always having a faith in him" for the principles he advocates, which he is always as free to frankly speak when asked. "Last but not least," Mr. Tongue has several times canvassed the state on the political issues of the times showing to a remarkable degree that he has the ability, force and courage as a public speaker to refute and show the glaring fallacies in the plans and arguments of his political opponents. These are mainly the reasons why the triumvirate political party deem it important to attempt on their part to "kill off" Mr. Tongue politically, by calling him names and reflecting upon his public acts. The voter is, however, intelligent and can penetrate the fog and see the real reasons beyond which such uncalled for attacks are supposed will befog the voter.

The populist party formerly advocated that unless the management of the government was turned over to their tender care, and both old parties thrown out, the country would go to "the bad," but they have so far changed their minds as to concede that it will be better to turn it over to them and the demagogues. This is evidence that they are progressing a little. Their ideas may continue to improve until they may conclude that it is better in the hands of the republican party alone.

It was not long ago that the demagogic parties persistently urged that great calamities would happen on account of the bankers, financiers and money-changers of the country. It happens that their faith has so far changed that at their fusion convention, recently held at Portland, they nominated as their candidate for congress in the first district, Bernard Daly, a prominent Oregon banker.

It is claimed that the state convention of the demagogic party of Oregon selected R. S. Sheridan, a prominent banker, as chairman of their state central committee. What a "change has come over the spirit of their dream." Less than four years ago a banker in their ranks would have appeared as completely out of place as would our Savior in the embrace of Satan. There is yet hope.

A gentleman on the street recently expressed his wonder if the "mud-slinging" which he had read about had any reference to those "broken down administrators" by our demagogic doctors, during the last several weeks, contrary to the good name and fame of Congressman Tongue."

Will some critic of the bill entitled, "An act, temporarily to provide revenues for the relief of the island of Porto Rico, and for other purposes," kindly suggest a more just or practical method for temporarily raising revenue for the relief of the island of Porto Rico, than the one provided in this bill?

The democratic party of recent years professed to be steadfast followers of Jefferson, Jackson, Calhoun and others prominent in history, but now it is "anything for office." Any combination with populists or other discordant organizations to catch votes will do.

Wm. J. Bryan in delivering speeches for the last several months has not mentioned "the

WOMEN and especially mothers are most competent to appreciate the purity, sweetness, and delicacy of CUTICURA SOAP, and to discover new uses for it daily. Its remarkable emollient, cleansing, and purifying properties derived from CUTICURA, the great skin cure and purifier of emollients, warrant its use in preserving, purifying, and beautifying the complexion, hands, and hair, and in the form of washes and solutions for ulcerative weaknesses, annoying irritations and chafes, too free or offensive perspiration, and for many sanative purposes which readily suggest themselves.

In many of the above conditions, gentle anointings with CUTICURA, will prove of astonishing benefit.
